Leasing / Financing Options Available

Our Extra Heavy Duty hard drive shredders are manufactured with a standard output conveyor for higher volume applications. These machines are direct driven so there is no belt that can ever break and need to be replaced resulting in downtime and additional maintenance cost.

All of our EHD shredders are manufactured with a powder coated finish which offers greater durability and corrosion resistance than a traditional painted finish. Our cutters are manufactured from the same material jack hammer bits are, making them extremely durable and exceptionally long lasting.

EHD shredders will shred most standard computer hard disks, copier hard drives, backup tapes, DVD's and assorted e-waste. The EHDs are designed for stationary applications or to be placed in trucks for mobile hard drive shredding.

SPECIFICATIONS	EHD500
Power Requirements In Voltage	208,230,460
Motor Output In HP	5
Infeed Width In Inches	11/2.5
Shred Width in Inches	1.5
Standard Drives Per Hour	1500
Weight (lbs)	2500
Size L/W/H in Inches	77/56/56
Standard Features	Heavy Duty Casters, On/Off Key, Output Conveyor, Saw Tooth Hooked Cutters, & High Torque Motor
Available Options	Forklift Pockets, Backlit Laser Etched Custom Logo, Caster Brackets, Air Filtration System, Lit Viewing
